

## **INTRODUCTION**

The idea of this book originally emerged from the conversation between two friends who were trying to ask each other the reason behind many people's complaints towards their lives, they curse everything that happens contrary to their expectations and assume that it is the responsibility of other people to deal with their expectations forgetting that they are the ones responsible for their own lives, something that has been tormenting a lot of us and find ourselves frustrated and seeing life worthless because all we have been doing is driving people to our responsibilities while in reality it should be our responsibility.

Life is a totality of what happens every day, life is not life if it does not have what makes life meaningful, literally i mean that life is about challenges ,friends, environment, our origin, and many other things that you will encounter in this book. the fact is that there is no way we can avoid things from happening in our lives, but we can definitely determine how we are going to deal with them and make sure that we don't lose focus because of the circumstances that make up this life to be the way it is. That is why no one has got the power to decide where to be born ,who should be his/her relatives, in what tribe or community he/she should come from, but everyone has the power to decide what kind of a person he /she should be after being born, it's only the matter of self-awareness. You must encounter challenges in your life unless if you decide to die but as long as you are alive challenges are tastes of life that no one can escape, which is why Christ said "in this world you will have trouble but be courageous." These are the things that happens every day of our lives but what we are trying to see together in this book is that when all of these happens we have a great deal of responsibility to make sure that everything has a good management from us.

You are the one who is responsible for making sure that everything is right in your life and i have the same responsibility too, so it doesn't matter what life do to us but what we do for our lives matters. The fact that I have written to you this book does not make me any how perfect, no I have a lot to work on daily, I still learn a lot and that is why I need you to learn in advance and add more knowledge to yourselves not because you need to be perfect no but because you need to be better than the person you were yesterday and have a society of people with brilliance and hope.

Therefore let's learn together and move ahead improve whatever you will find this book has come for, for the sake of being better maybe there is one thing you wanted to understand more and this book has become of help in that matter, I will be very happy and more over if you won't be only a reader but also a doer since a person who has an opportunity to go one step is the person who is willing to take an initiative whenever is needed. REMEMBER EVERYTHING WILL HAPPEN AS IT HAS BEEN PLANNED AND MANY THINGS IN LIFE WE WILL NOT HAVE POWER TO DECIDE OVER THEM BUT WE WILL HAVE POWER TO CONTROLL THEM , SO IT'S YOU WHO IS RESPONSIBLE FOR EVERYTHING THAT MAKES UP THIS LIFE TO BE THE WAY IT IS.REMEMBER THERE IS A CHANCE THAT GOD GAVE US SINCE THE BEGINNING OF THE WORLD, HE GAVE US THE CHANCE TO DOMINATE AND THAT IS OUR VERY IMPORTANT CHANCE IN THIS LIFE BECAUSE HE BELIEVED IN US IN THIS MATTER OF ADMINISTERING OUR OWN LIVES TOGETHER WITH EVERYTHING THAT HE HAS PUT IN US.
